Instant, Multi-Single Seal Barrier Solution

**Instant, environmentally friendly, hassle-free barrier gland solution from Hawke.**

Our new, unique cable gland innovation is designed to increase ease and speed of installation. Utilising the UNIV diaphragm seal concept, a seal is applied to individual cores. This offers an instant barrier seal solution for Exd applications.

- New multi diaphragm seal design
- 6 sizes complete the range
- 4 core to 19 core seal options available
- Each individual seal offers a sealing range of 1.5mm to 4mm with an additional core option from 4.5 to 6.5mm
- Reduces Operating Expenses
- Health and Safety concerns eliminated
- Easy to ship with no restrictions

**MADE IN  
BRITAIN**
