

END SEAL, HEAT SHRINK

These end seal kits are designed for the termination of nVent RAYCHEM industrial heating cables. The end seal kit employs easy to use heat-shrinkable tubing with an adhesive, that when heated forms a semi-flexible moisture proof encapsulation. Due to the low profile design the finished termination can be installed directly on the pipe. One end seal kit is required for each termination.

FEATURES

Simple and fast to install

Small geometry, for installation under the insulation

Reliable during long life, 10 year product warranty available, maintenance free

SPECIFICATIONS

Connection Type: Heat Shrinking Technique

Model: Heating Cable End Piece

Table 1/1

Catalog Number	Item Name	Max Exposure Temperature
1244-022489	E-20	110 °C
1244-022491	E-40	260 °C

WARNING

nVent products shall be installed and used only as indicated in nVent's product instruction sheets and training materials. Instruction sheets are available at www.nvent.com and from your nVent customer service representative. Improper installation, misuse, misapplication or other failure to completely follow nVent's instructions and warnings may cause product malfunction, property damage, serious bodily injury and death and/or void your warranty.
